# Beforebuild.ai

## INDIA'S PRE-BUILD TRUTH LAYER

Picking the right problem is your only moat.

# The Validation Vacuum

The current ecosystem is defined by massive destruction of capital.

**42%** **Fail due to lack of market need.**

**80%** **Shark Tank deals fail in Due Diligence.**

**90%** **Indian startups fail within 5 years.**

## The "Truth Moat" Test

Most founders confuse "polite feedback" with "market demand." As Anupam Mittal confirmed, televised handshakes are secondary to the raw truth of Post-TV Due Diligence.

# Moat Discovery

- **Pain over Features**

  We don't chase feature requests. We hunt for "Top 3" priorities where users are bleeding money.

- **Evidence over Opinions**

  We measure what users HAVE DONE—past behavior is the only honest signal.

- **Mandatory Money**

  No validation exists without financial skin in the game. Paid pre-orders or Escrow only.

# The Hallucination Gap

| | |
|---|---|
| **AI Synthetic Users**<br>FATAL FLAW: SYCOPHANCY | Algorithms are programmed to be helpful. Real humans push back, rage-quit, and lie. |
| **UserTesting.com**<br>RECORDING, NOT STRATEGY | Records where users click, but cannot tell you why they won't pay. Descriptive, not predictive. |
| **PreLaunch.com**<br>CURIOSITY "` DEMAND | Waitlists are cheap. A founder with 10k emails can still have zero revenue. |

# The Truth Sprint

**Week 01**

## W1: Pain Audit

15-20 "Mom Test" interviews. Problem Stack Ranking to kill delusion early.

**Week 02**

## W2: Behavioral Trap

Fake door funnels. Tracking drop-off at the pricing gate—the moment of truth.

**Week 03**

## W3: Money Signal

Mandatory financial commitment held in RBI-compliant digital escrow.

**Week 04**

## W4: The Verdict

Definitive GO / PIVOT / KILL verdict backed by a ¹1 Crore legal guarantee.
